

Authentic Italian handicraft products

CATALOGUE 2014/2015

the pursuit of beauty . . .

*. passion, attention to details
creating the original style of Italian luxury*

We are glad to present the third edition of “Class” general catalogue, completing the existing programme with new models of handles and fittings, along-with the absolute novelty of stylish bathroom accessories.

“Class” products proudly represent our authentic handicraft tradition in manufacturing articles according to teachings received from our grandparents at the beginning of last century.

All articles are created by our master engravers according to the taste of old original models, and produced with skill and experience by our craftsmen.

From the starting selection of high quality brass, all our items are manually finished by the ability of our workers, granting the 100% pure origin of “Made in Italy”.
